

## ABSTRACT

Each of the clients at AppDirect want the customization for their marketplaces, each having its own 'look and feel' requirements, pertaining to what would it's final product would look like to it's end users. Till now, the code for this entire task of giving the required outlook was monolith. For any changes in features, the entire code was required to be written. So, this project solves this problem as it allows the ISV's, telephonic, banking sector clients to customize the appearance and hence give the entire control to the developer. Therefore, the complete task has been optimized so it requires much less efforts. We here at AppDirect, have two ways of going about this process. Either, the clients themselves design the marketplaces or these clients instead of designing their marketplaces themselves, assign this task to AppDirect engineers itself and we in turn give them the full fledged theme ready for their marketplace. These marketplaces then go to the production. The main aim of the project is to customize as per the clients requirement and while doing this working towards improvements in this project task along with enhancements and features of Mid-tier Theme Customization.

## ACKNOWLEDGEMENT

The internship opportunity I had with AppDirect India was a great chance for learning and professional development. Therefore, I consider myself as a very lucky individual as I was provided with an opportunity to be a part of it. I am also grateful for having a chance to meet so many wonderful people and professionals who led me through this internship period.

Bearing in mind previous I am using this opportunity to express my deepest gratitude and special thanks to Mr. Rakesh Galitkar, Senior Front-end Engineer of AppDirect India who in spite of being extraordinarily busy with her/his duties, took time out to hear, guide and keep me on the correct path and allowing me to carry out my project at their esteemed organization and extending during the training.

I have taken efforts in this project 'Mid-Tier Theme Customization'. However, it would not have been possible without the kind support and help of many individuals and organizations. I would like to extend my sincere thanks to all of them. I express my deepest thanks to Mr. Rakesh Galitkar, Mr. Rohit Dhore, Mr. Prashant Dukare for taking part in useful decisions & giving necessary advices and guidance and arranged all facilities to make life easier. I choose this moment to acknowledge his/her contribution gratefully. My thanks and appreciations also go to my colleague interns in developing the project and people who have willingly helped me out with their abilities.

I perceive as this opportunity as a big milestone in my career development. I will strive to use gained skills and knowledge in the best possible way, and I will continue to work on their improvement, in order to attain desired career objectives.
